## PROFESIONAL SUMMARY:

Results-oriented and highly skilled Selenium Tester with 2 years of experience in manual and automation testing. Proficient in creating test cases, executing test scripts, and ensuring the quality and functionality of software applications. Experienced in Agile methodologies and adept at collaborating with cross-functional teams to achieve project goals. Strong problem-solving abilities, attention to detail, and a passion for delivering high-quality software.

## TECHNICAL SKILLS:

<b>Testing Tools</b>	Selenium WebDriver, Cucumber, Junit, Appium
<b>Programming languages</b>	Core Java
<b>Test Automation Frameworks</b>	BDD (Behavior-Driven Development), Page Object Model (POM), UIAutomator
<b>Version Control Systems</b>	Git
<b>Test Management Tool</b>	JIRA
<b>Continuous Integration</b>	Jenkins
<b>Operating System</b>	Windows
<b>Databases</b>	MySQL
<b>IDE Tools</b>	IntelliJ, Eclipse

## WORK EXPERIENCE:

- Working as a 'Associate Software Test engineer' at CloudscaleQA, Hyderabad from June 2021 to June 2023
- Have 2 years of experience in Manual & Automation Testing
- Good experience in Functionality, Regression and System Integration testing activities
- Good exposure to AGILE Methodology [SCRUM]
- Active in sprint planning, sprint review/retrospectives and daily stand-ups meetings
- Have experience in all phases of the Software Test Life Cycle
- Have experience in test planning activities
- Ability to understand Business, functional requirements and design documents
- Ability to write test cases covering all kinds of scenarios based on business requirements

- Ability to write clear and concise defect reports
- Involved in the preparation of test cases and execution of the same as part of my work
- Strong abilities in Software Testing including the creation of test scripts/cases, execution of Functional test cases and tracking of defects using various tools
- Have good exposure to Bug Life Cycle
- Commitment, result oriented and interested to learn new technologies
- Quick learner and excellent team player with good communication skills
- Provide consistent and clear status in verbal and written communications

## **PROJECT SUMMARY:**

### **Project -2**

**Title** : Broadridge  
**Client** : West InfoTech pvt Ltd.  
**Role** : Automation Tester (Selenium)  
**Duration** : January 2022 to June 2023

### **Description:**

As part of this project client needs to test a few of the major functional scenarios which were deployed to production on every release, so it won't affect the existing functionalities. The team decided to automate all the feasible functional scenarios by using Selenium and add it to test converge in the Regression suite.

### **Roles & Responsibilities:**

- Understand and analyze Business Requirement/Functional System Design Documents
- Write test cases by understanding user stories and acceptance criteria
- Test the functionalities of the requirement by executing test steps in a test case manually
- Report any defects observed during the testing
- Perform the feasibility analysis for automating the test cases
- Automate the selected test cases using Selenium
- Participate in daily standup calls to discuss the testing status and report any issues
- Perform Test Case Execution
- Prepare JIRA dashboards, Reports based on the test Case execution summary during the sprint Log and monitor the Defects which are raised during the testing in Jira.

### **Project -1**

**Title** : Transulation simplified  
**Client** : FedRa  
**Role** : Automation Tester(Selenium)  
**Duration** : June 2021 to January 2022

**Description:**

It is go-to globalization consultants! and helps to expand customer business on a global scale by translating and localizing their content, whatever its format. It makes customer brand accessible and relevant to their target audiences, so it enables customers to expand their business in various places

**Roles & Responsibilities:**

- Understand client requirements
- Prepare test scenarios and test cases after analyzing the business requirements
- Create a test execution plan and execute test cases accordingly
- Log and monitor defects raised during testing in Excel
- Participate in unit, sanity, system integration, user acceptance, and regression testing activities
- Collaborate with Business Analysts and Development teams to resolve issues
- Analyze and report defects in Excel for monitoring purpose
- Participate in daily scrum meetings and provide daily status reports
- Participate in retrospective meetings
- Review test cases and participate in review meetings

**EDUCATIONAL QUALIFICATION:**

- B. Tech (CSE) from Sri Sivani College of Engineering, Srikakulam – 2019

**PROFESSIONAL TRAINING:**

- I completed a Selenium course at the Magnesia Institute in 2021.

**PERSONAL SKILLS:**

- Strong analytical and problem-solving abilities
- Excellent attention to detail and ability to prioritize tasks
- Effective communication and collaboration skills
- Adaptability and ability to work well in a team environment
- Continuous learning mindset to stay updated with emerging technologies

**DECLARATION:**

I hereby declare that all the information given above is true and correct to the best of my knowledge.
