I have over 6.5 years of industry experience as creative visualization professional and have been a part of graphic designing, branding and typography projects for many exceptional companies during my tenure. I have a positive outlook towards life and worked hard to achieve my dreams.

With limitless imagination and creative drive, I started building my design portfolio in 2009. With a zeal to master in Designing & Screen Printing, I have always worked hard in becoming one of the top rated designers. Participating in design contests and working for extremely challenging projects motivates me to get ahead of the competition curve.
