EDUCATION

B.Tech Computer Engineering

Sal Institute of Technology and Engineering Research, Ahmedabad, Gujarat

2021 - 2024

Engineering Diploma Computer Engineering

L.J Polytechnic, Ahmedabad, Gujarat

2019 - 2021

WORK EXPERIENCE

Web Development Intern

Centre Of Environment Education, Ahmedabad, Gujarat

Jan 2024 - Apr 2024

- During my internship as a Web Development Intern at CEE India, I developed a responsive user interface for the coordinator dashboard using HTML, CSS, and JavaScript. This resulted in an improved user experience, leading to higher engagement and retention rates. Additionally, I translated complex data findings into actionable insights for non-technical stakeholders, demonstrating my ability to effectively communicate complex technical concepts.

SKILLS

Front End: HTML, CSS
Back End: Python, Java
Database: SQL Communication & Problem Solving

PROJECTS

Website for child welfare

This website provides a user-friendly platform to explore resources for adoption, foster care, and child protective services. It offers educational materials on child development, safety tips, and healthy parenting practices. This website also serves as a connection point, allowing users to find local support groups, emergency hotlines, and contact information for relevant child welfare agencies.

Hackathon Coursework

This healthcare website empowers users to take control of their health journey. By calculating their Body Mass Index (BMI), users can gain insights into their weight status and access personalized diet plans tailored to their goals, whether it's weight loss, management, or healthy eating for a specific condition. Developed in collaboration with healthcare professionals, these plans offer guidance on healthy food choices, portion control, and lifestyle modifications, all designed to support a sustainable and balanced approach to achieving optimal weight and well-being.
