SKILLS

Testing

Polymer Identification

Documentation

SOP preparation

Procurement

Instrumentation

QC testing

Leadership

Team work

Audit Preparation

Training to new technicians and chemists

Implementation of new tests in the laboratory

Procedure Development

ACHIEVEMENTS & AWARDS

*Merit Certificate from CBSE

*Congrats letter from Ex HRD minister Mr. Kapil Sibbal * Maths & Science proficiency test qualified * Received Toronto Canada scholarship

LANGUAGE

English, Hindi, Urdu

REFERENCE

Sayed Kamran Nasir - "Jazeera Paints"

Head R&D analytical section
skn.alig@gmail.com

PERSONAL DETAILS

Date of Birth : 08 July 1995

Marital Status : Married

Nationality : Indian

OBJECTIVE

To work with an organization with equal opportunity so that my performance should be visible and recognized. It will be in favour of both the company and me.

EXPERIENCE

Jazeera Paints Company

27 August 2016 - 26 Feb 2021

R&D Officer/Chemist

*Testing and analysis of emulsion and enamel paint as per standard SASO, ASTM, ISO, BS, MPI etc.

Quality testing of water based paints such as pH, viscosity, S.G., sheen, gloss, hiding, alkali resistance, water resistance, accelerated weathering testing, salt spray testing, Tape adhesion testing, mandrel bend testing, scratch hardness testing, pencil hardness testing, Pull off adhesion testing, VOC analysis, Tg measurement by DSC, scrub resistance test, washability test, stability testing etc.

*Raw material testing such as solid content, particle size analysis, flash point, oil absorption, acid value, moisture content by KF titrator, polymer identification by FTIR, ultracentrifuge operation.

*Document management

*Procurement of lab chemicals

*Hands on GCMS, TGA, DSC, KF titrator, pH meter, viscometer, ultracentrifuge, impact resistance tester, mandrel bend tester, moisture analyzer, salt spray tester, accelerated weathering tester, cupping tester, scrub resistance tester, scratch hardness tester, pull off adhesion tester, cross cut tester, glossmeter, color spectrometer, and other analytical instruments.

*Polymer separation and its identification.

* Communication and negotiation with the distributor and suppliers.

* Standardization of Lab reagents.

* Wet lab testing such as acid value, iodine value.

*Water quality Testing

EDUCATION

CBSE

2011

Class X
95%

CBSE

2013

Class XII
92.20%

Aligarh Muslim University

2016

B.Sc. (Hons.) Industrial Chemistry
79.03%

● IIBM Institute of Business Management

2018

MBA (Project Management, Oil & Gas Management)
75%

PROJECTS

● Nanotechnology and its industrial applications

● Solvent identification by GC-MS
