**SOFT  
SHEEN FINISH**

**ALGAE &  
FUNGI RESISTANT**

Powered by **INFRA.MARKET**

**Terracotta**

**Golden Yellow**

**Gun Grey**

## DIRECTIONS FOR USE

### Application Surfaces:

- Suitable for cement and concrete-based floors, cement tiles, driveways, walkways, and paver blocks.

### Surface Preparation:

- Allow new concrete surfaces to cure for 28 days before application.
- Clean the surface thoroughly using a hose to remove loose dust and dirt.
- Use a wire brush to scrub away algae, fungus, or moss, especially on areas prone to water stagnation.

### Coverage and Coating Directions

- **Self-Priming Coat:** Dilute the Hero Floor Shield with 25-30% water and apply a self-priming coat.
- **Top Coat:** Apply 2-3 coats of Hero Floor Shield, diluted with 10-15% potable water.

### Post-Painting Care:

- Allow 48 hours for curing before foot traffic.
- For regular traffic, allow at least 72 hours of curing at 25°C.
- To maintain optimal performance, regularly wash and clean the painted surface. Avoid using a wire brush during cleaning.

### Precautions:

- Remove any fungal, algal, or moss growth thoroughly with a wire brush. Apply Bio Block to the affected areas after cleaning.
- Avoid application during frost, dew, rain, fog, or extreme weather. The surface temperature should be between 10°C and 45°C.
- Do not apply on flaky or powdery substrates. Avoid bituminous or asphalt surfaces.
- Ensure a minimum of 48 hours before foot traffic and 72 hours for regular traffic at 25°C. Curing times may extend in cold, damp, or humid conditions.
