CAREER OBJECTIVE

Pursuing opportunity which will allow me to grow professionally, Self Motivated having Strong Educational and laboratory based background of pharmaceutical, API, and Formulation. Regardless giving the best of knowledge and skillful work to enrich valuable targeted goal of an Organization.

EXPERIENCE

QUALITY CONTROL CHEMIST

DNS fine chemicals and Pharmaceutical laboratories (API Manufacturing Unit)(Mar2021–Present)

- Calibration of daily balances and Instrumentation including PH meter, Karl Fisher, HPLC.
- Testing, Analyzing and Reporting of Active pharmaceutical Ingredients (API), and API related Compounds.
- Experience developing and performing HPLC For the assay and impurity detection of the products Uracil, Urea Etc.
- Performed wet chemical analysis on lab samples in order to ensure quality and consistency of product.
- Preparation of Volumetric solutions of different Normality, Standard reagents.
- Sampling of raw material, In-processed sample, Acids.
- Analyzed parameters as specific gravity, Viscosity, Moisture content, Acid base titrations, PH meter titrations, Melting point, Assay.
- Analyzed finished products and raw materials to support the plant operations and In-process monitoring.
- Responsible for completing all necessary paperwork, certificates of analysis for each lab sample, Registration of finished products, Raw materials, In-process.
- Preparation,Editing of SOP'S,MOA'S,Annexures.
- Frequent involvement in the initial training of new hires.
- Ability to work in a team environment and develop positive relationships by interacting with supervising chemist, Plant managers, sales representative and plant employees.
- Analyzing and checking quality of different compounds which are manufactured by R and D department.
- Complies with all current good laboratory practices (GLP), Current good manufacturing practices(cGMP) and safety Requirements.

QUALITY CONTROL TRAINEE CHEMIST.

HIMEDIA laboratories PVT Ltd/ Testing (Jun 2020–Mar2021)

- 6 months experience as Quality Control trainee chemist.
- To check the quality of media.
- Analyzing the presence of any type of growth in media.
- Microscopic analysis, under UV light analysis of bacterial growth.

ACADEMIC QUALIFICATION

| CLASS | BOARD/UNIVERSITY | ACADEMIC YEAR | PERCENTAGE |
|---|-------------------------|---------------|------------|
| Masters of science (Inorganic Chemistry) | Mumbai University | 2021-2023 | 76.61% |
| Bachelor of Science (Chemistry) | Mumbai University | 2018-2020 | 84.55% |
| HSC | Maharashtra state board | 2016-2017 | 62.20% |
| SSC | Maharashtra State board | 2014-2015 | 87.20% |

SKILLS

- Strong knowledge of Chemistry methods and principles.
- Excellent verbal and written communications.
- Strong command on Quality control processes.
- Perform Wet Chemistry, KF Titrations, HPLC, PH metric titrations, Melting point instruments,.
- Microsoft word, Excel, Power point.
- Experience of facing FDA Audit, Internal Audits, ISO Audit, Customer Audits ,Party Audits

HOBBIES AND INTEREST

- Listening to music.
- Reading Books.
