PROJECT DETAILS

Done a Final project on “LOCALE TRAILING AND LOG MAINTAINING SYSTEM FOR TRANSPORT USING ANDROID OS”

PROJECT:

There are many challenges in public transport system and the major issue among them is the waiting time. By introducing this project we are helping people to find the last location travelled by the bus and the time it passes that location. Using this everyone will get benefited to choose the bus according to their schedule. College bus tracking application helps the students as well as faculties to know the location of the bus from the mobile phone with GPS enabled. This acts as both transmitter and receiver to send the location to the application used by the user. User has to login for seeing the location of the scheduled bus.
