

# SOURAV CHAKRABORTY

Decisive, strategic and performance-driven professional targeting senior assignments in **Supply Chain Management, Logistics Planning, Demand Planning and Capacity Planning** with an organization of high repute

✉ souravkolkata86@gmail.com/ souravkolkata11@gmail.com

☎ +91-6290616974/ +91-7439893553

## Key Skills

Supply Chain Management

Supply Chain Analytics/ Optimization

Logistics & Warehouse Management

Process Enhancement/ Cost Savings/ Spend Analysis

Supply Chain Effectiveness/ Visibility

Logistics Planning & Analysis

Demand / Capacity Planning

Strategic Planning & Analysis

Team Building & Leadership

## IT Skills

- Advance Diploma in Computer Software Application (Dos, Window, MS-Word, MS-Excel, MS PowerPoint, and MS-Access)
- SAP - MM Module
- WMS – Module
- SAP ARIBA
- Super Procure

## Profile Summary

- A result-oriented professional **with 16.5 years** of experience in **Supply Chain Management and Logistics Planning in industries like Steel, Automobiles, Engineering, Manufacturing, Leathers**
- **Consistent & proven track record** of successfully employing best business practices that improve efficiency, reduce costs by identifying value chain cost, increasing performance, all to tight time scales and within budget
- **Established supply chain processes & SOPs**, streamlined workflow, developed work environment to optimize resource & capacity utilization and augmented productivity & operational efficiencies
- Successfully worked towards fulfilling of requirements of all 6-factories by placing vehicles / containers in time for supporting their customer commitments i.e., 3-tower factories, 2-PVC and 1-pole unit in **Skipper Limited**
- **Proven success in achieving optimum outputs** by synchronizing supply chain from supplier to customer through total supply chain solutions (demand & supply planning till delivery)
- **Team Player** with skills in managing a team of 25 members for **implementing the F&D System for Forward model Programs**
- Spearheaded the creation and implementation of best practice **capacity planning vision, strategy, policies**, processes and procedures to aid and improve operational performance
- Expertise in the managing the business operations and plans for **future capacity requirements**
- Focused on enabling the future transportation operating model, optimizing inventory management, driving topology planning or leveraging deep business insights and analytics to propel Targets Supply Chain
- Expertise in driving entire gamut of **operational functions** including material planning/inventory management, sourcing / procurement, logistic operations like sea freights & inland transportation and import & export operations
- Successfully **delivered multiple supply chain analytics projects** based on analytics insights & domain knowledge covering inventory optimization, simulations modeling, network optimization, vendor management, spend analysis and procurement analysis

## Career Timeline

- ⦿ Building strategic relationships with key suppliers, achieving aggressive targets in terms of cost, quality and delivery
- ⦿ Understanding & aligning the expectation of stakeholders and reporting in matrix organization structure
- ⦿ Taking initiatives to improve process & system by identifying system & process gaps
- ⦿ Analyzing monthly demand and identifying inconsistencies in forecast accuracy & forecast fidelity
- ⦿ Evaluating data to improve supply chain operations, driving improvement initiatives, monitoring implementation
- ⦿ Reviewing the plan product by product for each geography and creating analysis around problem statements
- ⦿ Building purchase orders and ensuring ready availability of material to meet production & dispatch targets
- ⦿ Formulating Standard Operating Procedures within the warehouse and maintaining compliance with these procedures
- ⦿ Monitoring key manufacturing processes for capacity and demand, identify capacity constraints and provide analysis
- ⦿ Leading improvement initiatives that optimise capacity and ensuring best return on investment without adding risk or disruption
- ⦿ Spearheading the capacity planning activities ensuring delivery against operational requirements and which optimise manufacturing efficiency and costs

## Previous Experience

### Sep'13 – Jul'19 with Shyam Metallics and Energy Limited, as Logistics Head (Domestic & Exports) – Supply Chain

#### Management & Logistics Significant Highlights:

- ⦿ Managed the India Domestic & Exports Logistics Operations and materials distribution
- ⦿ Supervised the Warehouse Development Project in Jamuria (WB) and Sambalpur (OD) Plant
- ⦿ Prepared SOPs and Implementation of full warehouse and logistics operation process as per the requirement of the plant
- ⦿ Administered the Supply Chain Management & Exports Logistics related to various requirements / issues in-plant
- ⦿ Conducted the thorough analysis of the Data related with Supply chain, Warehousing, Logistics, Exports and made proper planning
- ⦿ Devised new SOPs and made the process flow chart for maintain warehouse & Logistics operation process
- ⦿ Successfully introduced Automated Warehousing Project in both plant area (ADC, WAP system)

### Aug'11 – Aug'13 with Swarnali Global Enterprise, as Project Head – Supply Chain Management

#### Significant Highlights:

- ⦿ Supervised the projects management activities and managed the different client Project Requirement across India
- ⦿ Made SOP for smooth Operation process and Logistics (Domestic & Exports) Management as per client requirement
- ⦿ Gave prompt solution to the logistics and other supply chain issues

### Jun'08 – Jul'11 with ZKL Bearing (India) Pvt. Ltd., as Senior Manager – Operations & Logistics

#### Significant Highlights:

- ⦿ Managed the total 2 master warehouses in All Over India and supervised the team of 35 staff in all over India
- ⦿ Created the new vendor and vendor negotiation; maintained supply chain management process flow & controlling
- ⦿ Supervised the total logistics & operation management along with the distributions & dispatches

### Apr'05 – May'08 with Reliance Telecom Limited, as Warehouse In-Charge

#### Significant Highlights:

- ⦿ Administered the end-to-end warehouse management and supervised the complete Warehouse Operations & its management
- ⦿ Supervised Logistics & distribution process while working on SAP with MM module
- ⦿ Obtained quotations from Vendors and obtaining approval from management for raising the Purchase order
