PROFESSIONAL STRENGTHS

- Possess good verbal and written communication skills.
- Quick learner and Ability to work in a team with full co-operation and contribution.
- Ability to handle multiple tasks and open to learn new ideas.

TECHNICAL PROFICIENCY

- Microsoft office.
- Foundry & forging.
- Production technology.

ACEDMIC PROJECTS

Free Energy Anti-Gravity Power Generation System.

- Input energy is multiplied by two to three times for the output which can be termed as free energy.
- Here say motor propels for half a rotation, the assembly rotates to have at least 2 to 3 rotation independently and again by the end of those the motor propels momentarily.
- We are not showing the gain comparison in terms of voltage or ampere, but physical rotation and power generation even during motor propulsion is in idle condition.
- Implying the above theory we can say that the power gain is affected.

WORK EXPERIENCE

- Worked at **Finolex Cables Limited, Goa** for 6 months as a machine operator in Production.
- Working at **Agarwal Fasteners Private Limited, Palghar (Maharashtra)** as a Trainee Engineer in Quality Department (From September 2019).
