Personality Traits:

- Excellent analytical and problem solving skills
- Enthusiastic about new technology
- Team working skills
- Aptitude in computational chemistry

Academic Projects:

- The MSc project titled “Study of Detonation Properties of Trinitromethane Derivatives of LLM-105 High Energy Material” carried out the design and theoretical investigation of a series of trinitromethane derivatives of LLM-105 and it was concluded that the introduction of two TNM improves the detonation performance so that they are confirmed as potential high energy density materials for future investigation
- The BSc project titled “Comparative Study on Percentage of Calcium Carbonate Present in Variety of Eggshell”

Achievements:

- Participated in the three day international webinar on "GOLD AURA -Chemistry for Life" organized by PG Department of Chemistry, Payyanur College
- Participated in webinar on "Crystal Field Theory to Ligand Field Theory to Molecular Orbital Theory" organized by Department of Chemistry, St Aloysius College, Mangaluru
- Participated in webinar on "The Art Of Synthesizing Organic Compounds: A Researcher's Perspective" organized by PG Department of Chemistry, Sir Syed College
- Served as a volunteer in National Service Scheme during 2016-19
